

Personal Information:

Name	Robert Alan Whitaker
Address	742 Mockingbird Ridge Drive
City	Knoxville
State	Tennessee
Zip Code	37922
Phone	(865) 555-0148
Email Address	robert.whitaker@example.com
Birth Date	03/14/1961 (Age 65)
Blood Type	O Positive (O+)
Organ Donor (Y/N)	Yes

Allergies:

Penicillin — hives and facial swelling (avoid beta-lactams unless evaluated).
Iodinated IV contrast — diffuse rash after prior CT; no history of anaphylaxis.

Implants:

Dual-chamber cardiac pacemaker, left upper chest — implanted 08/22/2022.
Right total knee prosthesis — implanted 04/17/2018.

Medical Conditions:

Coronary artery disease (drug-eluting stent to RCA, 2019); paroxysmal atrial fibrillation; hypertension; type 2 diabetes mellitus; hyperlipidemia; mild COPD; chronic kidney disease stage 2; benign prostatic hyperplasia; GERD.

Medications:

Apixaban 5 mg by mouth twice daily — atrial fibrillation/stroke prevention.
Metoprolol succinate ER 25 mg daily — rate control/blood pressure.
Lisinopril 10 mg daily — hypertension/renal protection.
Metformin ER 500 mg twice daily with meals — diabetes.
Atorvastatin 40 mg nightly — hyperlipidemia/CAD.
Tamsulosin 0.4 mg nightly — BPH.
Albuterol HFA 2 puffs every 4–6 hours as needed — wheeze/shortness of breath.

OTC Medications & Supplements:

Acetaminophen 500 mg, 1–2 tablets as needed for arthritis pain (max 3,000 mg/day).
Vitamin D3 1,000 IU daily. Avoids ibuprofen/naproxen because of anticoagulation and kidney disease.

Vaccinations:

Influenza 10/03/2025; COVID-19 booster 10/03/2025; PCV20 05/11/2023; Shingrix series completed 2021; Tdap 06/07/2024; RSV vaccine 09/18/2024.

Recent Procedures:

Pacemaker interrogation — 06/05/2026: normal function, battery longevity approximately 8 years.
Chest X-ray — 06/12/2026: no acute cardiopulmonary process; stable pacemaker leads.
Colonoscopy — 11/14/2024: two small adenomatous polyps removed; repeat recommended in 5 years.
A1c — 07/02/2026: 6.8%.

Past Surgeries:

Appendectomy (1985); coronary angioplasty/stent (2019); right total knee arthroplasty (2018); bilateral cataract extraction with lens implants (2021); dual-chamber pacemaker placement (2022).

Family History:

Father: myocardial infarction at 62; died at 76 of heart failure. Mother: hypertension and ischemic stroke at 71; died at 83. Older brother: type 2 diabetes. No known family history of colon cancer.

Doctors:

Elena Morris, MD — Primary Care, Ridgeview Family Medicine — (865) 555-0101.
Samuel Price, MD — Cardiology, East Valley Heart Group — (865) 555-0120.
Nina Patel, MD — Pulmonology, Foothills Pulmonary Clinic — (865) 555-0136.
Marcus Lee, MD — Urology, Tennessee Urologic Associates — (865) 555-0162.

Insurance:

NorthStar Senior Health — Medicare Advantage HMO, Silver Horizon Plan. Member ID: NSH-DEMO-884217;
Group: SH-4409-DEMO; Member Services: (800) 555-0199. Fictional demo coverage only.

Medical Surrogates:

Primary: Elaine Whitaker (spouse) — (865) 555-0112. Alternate: Jessica Whitaker (adult daughter) — (615) 555-0184. Patient has a fictional demo health-care surrogate designation naming both in this order.

Emergency Contacts:

Elaine Whitaker (spouse) — (865) 555-0112.
Jessica Whitaker (daughter) — (615) 555-0184.

Next of Kin:

Elaine Whitaker — spouse — same household as patient — (865) 555-0112.

DO NOT RESUSCITATE / DO NOT INTUBATE (DNR/DNI)

DEMO ONLY — FICTIONAL SAMPLE — NOT A VALID MEDICAL ORDER

Patient	Robert Alan Whitaker
Date of Birth	03/14/1961
Demo Record #	DR-65821
Address	742 Mockingbird Ridge Drive, Knoxville, TN 37922

Order Selection:

- ☒ DO NOT ATTEMPT CARDIOPULMONARY RESUSCITATION (DNR) if pulseless and not breathing.
- ☒ DO NOT INTUBATE (DNI). Do not place an endotracheal tube or initiate invasive mechanical ventilation.
- ☒ Provide comfort-focused treatment, oxygen, medication for pain/anxiety, and other noninvasive measures as clinically appropriate.
- ☒ Transfer to hospital only when needed for comfort or treatment consistent with these stated goals.

Clinical Context:

Chronic coronary artery disease, paroxysmal atrial fibrillation, COPD, hypertension, type 2 diabetes, and chronic kidney disease stage 2. Patient has decision-making capacity at the time of this fictional demonstration order.

Patient Statement:

I understand that a DNR/DNI order limits resuscitative measures if my heart or breathing stops. I request treatment focused on comfort and symptom relief and do not want CPR or invasive intubation.
